

579 Breather and Bleeder

Overview: This high fill non-woven polyester will easily drape to conform closely to the contours of your part. It does not contain any binders which could close off air flow within the mold, and it will readily wick up excess resin. .003" Thick, 4 oz/sq. yd, 60" wide

Features & Benefits:

- **Good breather for low pressure cures**
- **Conforms well**
- **Can be used as a bleeder at any pressure**
- **Easy to drape and Binder Free**
- **Able to take high temperatures**
- **Soft and conformable to avoid bridging**
- **Protects against bag failures in a sharp radius**

Product Specifications:

Based Material	Polyester
Color	White
Nominal Weight oz./yd. ² (g/m ²)	4 (135)
Maximum Recommended Use Temp (1)°F (°C)	400 (204)
Fire Retardant	N/A

*Values shown above are typical and are not for use as final limiting specifications.
