SECTION 1 - PRODUCT IDENTIFICATION

PRODUCT NAME: PART #217 Woven Fiberglass Tapes

DESCRIPTION: Woven textile product used for reinforcement in various resin systems.

SECTION 2 - HAZARDOUS INGREDIENTS

<table>

SECTION 4 - PHYSICAL DATA

SPECIFIC GRAVITY: Approx. 2.5

SOLUBILITY IN WATER: Negligible

APPEARANCE/PHYSICAL STATE: White; solid

ODOR: No distinctive odor.

SECTION 5 - FIRE HAZARD DATA

FLASH POINT: Not applicable

FLAMMABLE LIMITS: Not applicable

EXTINGUISHING MEDIA: Water, dry powder, or foam (needed for packaging only).

SPECIAL FIRE FIGHTING PROCEDURE: In any sustained fire, wear self-contained breathing apparatus.

UNUSUAL FIRE HAZARDS: Not applicable to glass fiber.

SECTION 6 - REACTIVITY DATA

STABILITY: Stable

HAZARDOUS POLYMERIZATION: Will not occur.

CONDITIONS/MATERIALS TO AVOID: None known

HAZARDOUS DECOMPOSITION PRODUCTS: None generated under normal storage or handling conditions.
SECTION 7 - HEALTH HAZARD DATA

POTENTIAL ROUTES OF ENTRY:  Inhalation, skin contact

EFFECT OF OVEREXPOSURE:  Direct skin contact with fibrous glass or its dust may cause mechanical irritation and transitory dermatitis. Breathing of fibers or dust may cause mechanical irritation of the mouth, nose, and throat.

EMERGENCY AND FIRST AID PROCEDURE:
Inhalation:  Move to fresh air area.
Ingestion:  Not likely to occur through normal use, should ingestion occur seek medical attention.
Eyes:  Flush with flowing water for 15 minutes – seek medical attention
Skin:  Flush with ample cool water followed by washing with mild soap to remove accumulated fibers.

CARCINOGEN:  Not classified as regulated under ACGIH, IARC, NTP or OSHA. Industry studies have shown textile grade fibrous glass to be a non-carcinogen.

SECTION 8 - SPECIAL PROTECTION REQUIRED

Exposure to fibrous glass may cause mechanical irritation to the skin, eyes, nose and throat. Typically such irritation occurs to newly exposed individuals, and usually diminishes after several days of exposure.

RESPIRATORY:  If airborne fibrous glass exceeds the regulatory limits, or if upper respiratory irritation occurs, use a respirator designed for nuisance type dust.

VENTILATION:  Normal area ventilation is sufficient in most cases to keep dust and fiber levels below the TLV or PEL.

SKIN:  Barrier creams, gloves, and long sleeve loose fitting clothing may be required for certain workers who have sensitive skin or contact dermatitis. Work clothing should be laundered separately from other clothing before reuse.

EYE:  Not normally required, but as a good safety work practice, suggest the wearing of appropriate eye protection such as safety glasses/side shields, or equivalent whenever use of the product releases airborne fibrous glass.

OTHER:  Observe good personal hygiene.
SECTION 9 - CONTAINMENT AND DISPOSAL

CONTAINMENT AND CLEAN-UP: Dust or loose fibers can be vacuumed or swept with the aid of a dust suppressant.

DISPOSAL: Dispose according to local, state, and federal laws. This material is not regulated under RCRA hazardous waste regulations.

SECTION 10 - SPECIAL PRECAUTIONS

SHIPPING: Not regulated by DOT; not classified by TDG.

STORAGE: Store in dry area.

SECTION 11 - REGULATORY INFORMATION

EPA, RCRA 40 CFR, PART 261, 1990: Non-hazardous
CA PROPOSITION 65: Insignificant trace quantity
CERCLA: Not listed
MA RIGHT-TO-KNOW: Less than reportable quantity
SARA TITLE III: Exempt by definition
NJ RIGHT-TO-KNOW: Less than reportable quantity
PA RIGHT-TO-KNOW: Less than reportable quantity
TSCA INVENTORY: Exempt per section 8(a), 710.2 (f) and 704.5(a).

SECTION 12 - COMMENTS
