Overview

Fibre Glast Developments is a repackager, private labeler and distributor of fiberglass and composite materials. We offer a full line of fiberglass, Kevlar and carbon fiber in both dry and prepreg form. We have several types of polyester resins, gel coats, epoxy resins and vinyl ester resins in convenient 5-gallon pails, gallons or quarts. These convenient sizes are excellent for field repairs.

Our full product line includes vacuum bagging materials, tools and supplies. We can deliver from stock or assemble kits for your warehouse. International and air shipping experts.
